## OBJECTIVE

- To secure an internship position in Information Technology that will allow me to gain valuable experience and knowledge in the field while contributing to the success of the organization.

## EDUCATION

Third-year student in Data Science and Artificial Intelligence, Hue University of Engineering and Technology – 2023.

- Relevant coursework: Python Programming (A), System analysis and design (B), machine learning (A), IOT (A), Database Management (B)
- GPA (2nd semester of 2021-2022): 3.33/4.
- GPA (1st semester of 2022-2023): 3.57/4.

## SKILLS

- Proficient in programming languages: Python, C++, R, and SQL.
- Experience with data visualization.
- Knowledge of statistical modeling and data analysis techniques.
- Experience with data cleaning, transformation and integration.
- Strong analytical, problem-solving and communication skills.
- Able to work independently and as part of a team.

## EXPERIENCE

### SCIENTIFIC RESEARCH

- *Building a robot to prevent Covid-19 (2021-2022).*
- *Application of Internet of Things and computer vision in building intelligent light model using solar energy (2022).*

### CONFERENCE PAPER

- *Application of Internet of Things and computer vision in building intelligent light model using solar energy (2022)* that is published in 2022 9th NAFOSTED Conference on Information and Computer Science (NICS).

### RESEARCH INTERNSHIP

*Kasetsart University- Thailand (7/2022 - 9/2022) Faculty of Science and Engineering at Chalermphrakiat Sakon Nakhon Province Campus, Kasetsart University.*

- *Conducted research in Feedback control- PID Controller*
- *Collaborated with other researchers to program the Controller using Arduino.*
